## Microsoft Sentinel Rapid Adoption

4 WEEKS TO FULL IMPLEMENTATION. DAYS TO FIRST VALUE.

Ascent Solutions has years of experience operating exclusively on the Sentinel platform. That experience has given Ascent deep expertise in its capabilities, features, and benefits. Every Sentinel deployment from Ascent is proven, optimized, and ready to deliver measurable results.

*While many providers require more than 30 days to onboard customers and connect data sources, Ascent uses proprietary automation tooling to have Sentinel integrated, operating, and tuning logs in under a single business week.*

The introduction of Microsoft's Sentinel Data Lake strategy gives organizations the ability to significantly reduce ingestion costs while increasing the value of stored security data.

Ascent designs each Sentinel Rapid Adoption to take advantage of this model from the start. This approach allows organizations to retain data longer, expand analytics, and lower operational costs without sacrificing capability.

### The 4-Week Sentinel Rapid Adoption Includes:

Deployment and configuration of Sentinel in alignment with Microsoft best practices and the customer's environment.

Connection and ingestion of key log sources to establish full visibility.

Tuning of analytics rules to minimize noise and surface high-value alerts.

A cost-benefit analysis comparing Sentinel to the current solution, detailing both performance gains and savings from the Data Lake model.

Ascent also applies its expertise in detectiononomics to quantify the cost impact of each detection and response. This ensures security operations focus on activities that deliver the greatest value. By the end of the engagement, Sentinel is positioned as the centerpiece of a smarter, faster, and more cost-effective security strategy, with results demonstrated in the first month.

### ABOUT ASCENT

**Ascent is the cybersecurity partner to SECURE, ADVISE, and MANAGE the enterprise.** We are built to help firms evolve their cybersecurity posture, modernize their Microsoft solutions, and manage their security programs. Ascent provides organizations with the Microsoft Security expertise needed to quickly move beyond security constraints and focus on achieving business results.

## Microsoft Partner

### MODERN WORK SPECIALIZATIONS

- Adoption & Change Management

### SECURITY SPECIALIZATIONS

- Information Protection and Governance
- Threat Protection
- Identity and Access Management
- Cloud Security

### 2022 RECOGNITION

- Top Regional Systems Integrator at Exclusive Global Partner Airlift

### 2023 RECOGNITION

- Microsoft Security Excellence Award Winner for Security Trailblazer
- Microsoft US Partner of the Year for Modern Endpoint Management

### 2024 RECOGNITION

- Microsoft Security Excellence Award Winner for Security Customer Champion

## Member of Microsoft Intelligent Security Association

### ADVISORY SERVICES

- Responsible AI
- Security Gap Analysis
- Business Change Enablement

### TECHNOLOGY SERVICES

- Microsoft Security Technology
- Azure Apps, Infrastructure, Data & AI
- M365, O365
- Teams and Teams Platform
- Managed Security

### INDUSTRIES SERVED

- Agriculture
- Architecture & Engineering
- Consumer Packaged Goods
- Energy & Utilities
- Financial Services
- Government
- Health Life Sciences
- Legal Services
- Manufacturing & Distribution
- Retail
- Transportation
